Why Do Most Online Businesses Fail?

Why Do Most Online Business Fail?

- Most online businesses like e-commerce, affiliate marketing, info-products sales only pay you once.
- If you want to get paid again, you have to keep working! (Kinda like a job!)
- To keep getting paid, you need to be 100% sure that you make the same number of sales tomorrow as you did today.
- If you're not certain you can do that, you can't reliably predict what your income is going to be in 3-6 months.
- If you can't predict your income in 3-6 months, you can't quit your job.
- Don't see results? You get frustrated and start looking for other solutions.

The Vicious Cycle

- You determine the business you're building doesn't work.
- You look for something else and start over again.
- You see some results (or not!) but it's not as consistent as you need.
- You decide it "doesn't work", buy something else & the cycle repeats itself.
- You feel trapped, continue to spend money & get more distrusting & frustrated.
- Get jaded, filled with negativity and believe that this whole "make money online" thing is a scam.

Sound Familiar?

NONE Of This Is Your Fault!

- These businesses are flawed from the start and can be incredibly difficult to run!
- So unless you're a pro marketer, or have all day to run your business.
- It's almost impossible to succeed for any length of time!
- These are simply not sustainable “lifestyle” businesses!
- They're too much work, with too much inconsistency.
- That's why most new online businesses fail in less than a year!

How I Fell Into All Of This

- 14 Years Ago... I Had No Clue What “Internet Marketing” Even Was!
- Regular Canadian guy. Hockey. Beer. Tim Hortons
- Studied Psychology at Carleton University in Ottawa,
- Graduated & got head hunted by a finance company (Freedom 55)
- Worked under a senior advisor. Started building my investment business.
- Things were good! It was a tough, but I was making my way.
- Spent two years building my finance business ... then 2008 happened.

2008: A Terrible Year To Be In Finance

- The economy was tanking.
- Everybody was terrified and stuffing cash under the bed.
- Sept 2008 my customers started withdrawing their money.
- Every dollar I wasn't managing, was a dollar I wasn't getting paid on.
- And since I was straight commission...
- And more money was going out than coming in... I was in trouble!

The Downward Slide

- I started burning through my safety net faster than I could refill it.
- Got to the point where I had to choose between rent and food.
- Peanut butter on crackers, Kraft Dinner, dented cans & powdered milk.
- It was the economy I was telling myself. It'll pick up soon.
- Things were bad, but I was too proud to let my family know.
- Deep down inside... I was terrified and didn't know what to do.

A Week Before Christmas...

- It was Friday a week before Christmas 2008 and I was looking forward to a much needed break.
- Weather was awful and I had just traveled an hour in a frigid Canadian snowstorm coming home from a sale I didn't close. It sucked.
- But it didn't matter. Because I was on Christmas break now.
- And as long as I had my one big client... I'd be ok...
- Just as I closed the door, on my last day before the Christmas break

The Call That Changed It All

“I’m sorry Adam, with the economy and everything, we’re just not comfortable with our investments at the moment so we’d like to withdraw everything we have.”

**... and like that... my last pay
check before Christmas was gone.**

I had nothing. No money. No food. No gifts for my family. I was broken.

Hitting Rock Bottom On Christmas

- So there I was... in my early 20's, weeks away from being evicted and \$35,000 in debt.
- Terrified. Hungry, no income and I had no clue what to do next.
- So I did the only thing I could... the night before Christmas I started writing...
- I wrote letters to every member of my family telling them how much I love them and appreciated them.
- It was all I had...

Hitting Rock Bottom On Christmas

- So I went over to my parents place on Christmas morning and for a brief moment everything was normal again.
- And we started exchanging gifts. And I pulled out the only gifts I had... the letters I wrote.
- I felt horrible for not being able to get my little sisters, or anyone, anything for Christmas!
- And as everyone opened their letters, there wasn't a dry eye in the house.
- I had never felt that bad in my life. I couldn't get my family anything for Christmas.
- And my mom turned and said something to me I'll never forget...

"Adam, you didn't give us "nothing" for Christmas, you gave us everything you had."

And I decided right then and there...

NEVER AGAIN!

NEVER AGAIN!

NEVER AGAIN would I feel trapped and without options.

NEVER AGAIN would I be a victim of circumstance.

NEVER AGAIN would my life be out of control!

NEVER AGAIN would I be hungry or afraid.

Crawling Out Of The Pit Of Despair

- Started crawling out of the pit I had fell into. 2 steps forward... 1 step backwards.
- I was \$35,000 in debt and terrified. I was back at “zero” again.
- Did what everybody does when trying to fix a problem. I went to Google.
- Searched For: “How To Market My Business”
- Read almost every marketing book printed in the past 100 years!
- And I noticed a pattern. All successful ads follow a formula.
- So I started testing this formula... And IT WORKED!

Success Is A Double Edged Sword

- My business started growing. Clients were piling on faster than I could handle them.
- My manager was in awe, wondering where all these people were coming from.
- It felt like magic. Didn't feel real! Getting clients turned into a piece of cake!
- And of course... people started asking questions. And of course, I helped!
- My business very quickly switching from financial help to business and marketing help!
- I opened up my marketing firm and it grew faster than we could have ever imagined.
- And life got very busy, very fast. We were hiring new staff members every few months.
- Sure, money wasn't an issue anymore... but guess what...

I WAS STILL MISERABLE!

I Was Too Busy Working To Enjoy Life!

- Never got to see my family anymore. I was always working.
- I wasn't getting enough sleep. I was exhausted.
- Stress levels through the roof (had to take Zantac twice a day, every day!)
- I never got to play guitar... go camping... do anything fun!
- I was burning out. I loved helping. But I couldn't keep it up.
- Life sucked. And I learned another lesson the hard way...

**No Matter How Much Money You Make
If You Can't Do What Makes You Happy
You're Going To Be Miserable.**

The Lightbulb Moment

- End of 2012. Marketing business was doing very well.
- Really busy... burning the candle at both ends.
- Decided to go over my books & noticed something stunning!
- I was paying over \$500 in tiny recurring charges EVERY month!
- Nothing big - things like online tools, newsletter subscriptions, etc.
- But when you add it up... WHOA! It makes a HUGE difference!
- Sitting there thinking about it and it hit me like a ton of bricks!

The GENIUS At The Other End...

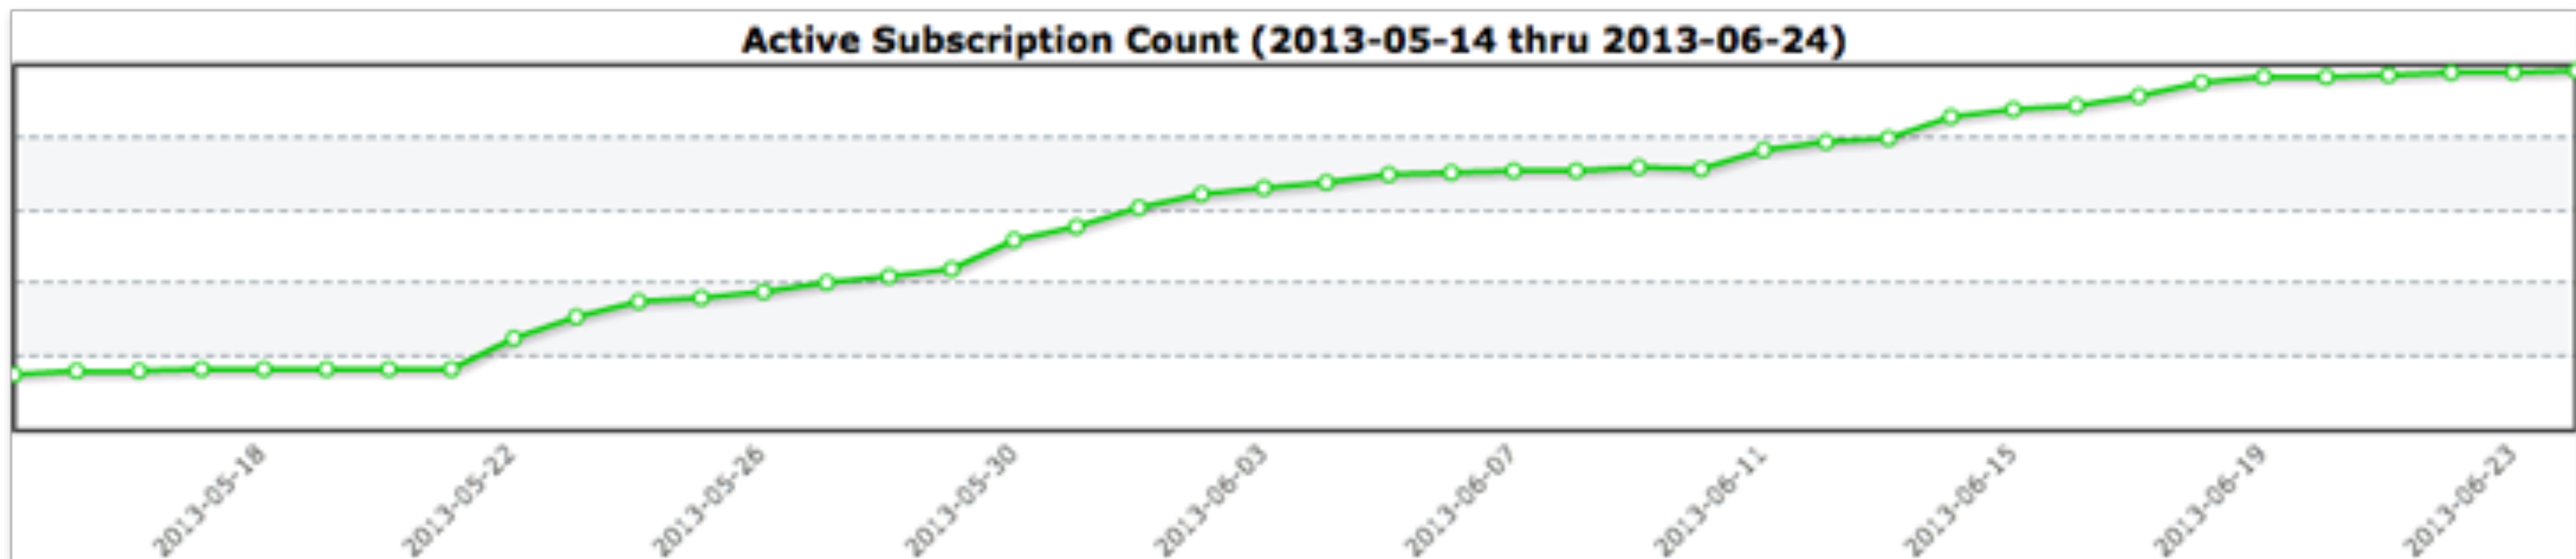

- That money wasn't disappearing!
- There was a brilliant business owner on the other end!
- Thousands of \$5 payments every month from people just like you and I!
- People that liked having the information but were too busy to cancel.
- If this guy can do it, so can I! So I started testing.

Testing The Waters

- Created a small, helpful monthly marketing newsletter.
- Literally a Microsoft Word document with text images! About 3-4 pages long.
- Made an ugly video saying: “Here’s what I have. Here’s what it will do for you. Here’s how to get it.”
- Asked people to sign up for \$5 a month
- To my SHOCKING surprise: I got hundreds of subscribers right away!

The Results Were Amazing!

- Customers loved it! They just kept paying every month!
- 3 months later less than 5% of customers canceled!
- Customers enjoy content, but forget about small payments.
- Result: Customers happily sign up and keep paying... FOREVER!

And It's Still Working To This Day!

Why These Low Price Subscription Businesses Work So Well

- When the immediate pleasure of buying something is greater than the pain of paying for it becomes an impulse purchase. (donuts & coffee)
- Impulse purchases are easily justified - People focus on the small transaction value, not the frequency of purchases. "It's only \$5.00 a day!" vs "It's \$150 a month!"
- When cutting costs, people focus on the big stuff, not the small "impulse" stuff.
- Immediate gratification + high value + low price = customers purchase and stay subscribed for years!
- You get bank deposits every single day and get a raise every month.
- Extreme income security, literally worlds most stable online business
- 1000's of tiny payments from people all around the world. Large # of small payments = very consistent, predictable income.
- Same amount of work whether you're making \$50 or \$5,000.
- Kinda like owning your own Netflix business!
- After teaching online business for over a decade, here's what I've discovered...

**A Subscription Business Is
The Only GUARANTEED
Way To Succeed Long Term!**

Want To Learn How To Build One? :-)

The 3 Big Goals

Understand These The Rest Is Easy!

- **Goal #1** - Create a subscription business customers are excited to join.
- **Goal #2** - Attract sales now by making an offer they can't refuse.
- **Goal #3** - Grow your business quickly with pre-packaged promotions.

**Goal #1: Create a
subscription business
customers are excited to join**

**"MYTH: People Won't Pay For
Stuff They Can Get For Free!"**

(How many people are thinking that right now?)

"MYTH: People Won't Pay For Stuff They Can Get For Free!"

- Honestly... makes complete sense! I thought the same thing too!
- What I found out though was that people love customized content!
- They want information that is tailored to their specific problem or interest!
- And they don't want to have to hunt for it or question it's reliability.
- So as long as I kept them happy - sharing great content with personality.
- And it didn't trigger that "this is too expensive!" alarm.
- Then they just stayed subscribed and kept paying!

Goal #1. Create A Simple Subscription Offer

- **Step #1** - Find a passion or a problem in a market you love.
- **Step #2** - Find a solution to the problem (create, buy, borrow, partner)
- **Step #3** - Assemble 3-5 solutions / tips / helpful ideas together.

Step #1 - Find A Passion Or A Problem In A Market You Love

- The more familiar you are with the market, the easier this is.
- The more passionate a market, the easier the sale.
- Hobbies work exceptionally well! (You'll see why soon!)
- The more you can cross promote, the easier this will be. (Ex: hunting/fishing)
- Make a list for each of the following:
 - What do you spend your money on?
 - What do you get paid to do?
 - What is exciting for you?
 - Highlight topics that appear in more than 1 category.

Market Examples

Passions

- Hunting / fishing
- Golf
- Sailing
- Wood working
- Competitive athletic sports
- Collecting
- Homeopathic medicine
- Writing
- Couponing
- Pets

Problems

- Weight loss
- Muscle gain
- Relationships
- Stress reduction
- Home repair
- Child care
- Pets
- Money saving
- Energy saving
- Health related

Step #2 - Find Your Content

- **Create your own content** and make yourself the community expert.
- **Buy content from online sources.** (IDPLR.com, Master-Resale-Rights.com My favourite!)
- **Borrow content** (with permission) from others.
- **Partner with content creators** and feature their work.
- Each tip has to be 5-10x more valuable than the cost. (real world value)
- Always give “action steps” at the end.
- “Hacks / Tips / Tricks” newsletters work VERY well!
- Short & Sweet! Don't set expectations so high you can't keep up!

The Best Way To Build Your Newsletter

- Tested lots of different formats... this is what works best:
 - Introduction / Editors Letter
 - Cool Tip #1
 - Cool Tip #2
 - Cool Tip #3
 - Cool Tip #4
 - Cool Tip #5
 - FAQ / Member Questions
 - Bonuses / Gifts
 - Wrap Up / Teaser
- TIP: Organize your newsletter by sections based on your market.

FRUITS FOR THE WIN!

Mamma always said, "You can't have your dessert 'till you finish your veggies!"

Well, as it turns out, she was onto something! Fruits and vegetables are loaded with vitamins, fiber, minerals and antioxidants. They're not only essential for growth, development and achieving optimal health now but also for preventing chronic diseases later.

Let's get real here. Most of us aren't eating anywhere near as much fruits and veggies as we should be! USA Today reports children and adults eat an average of slightly more than 1 cup of vegetables a day and a little more than a 1/2 cup of fruit.

For an average woman with a 2,000 calorie diet that turns out to be about 2 cups of fruit and 2.5 cups of veggies each day.

Shocking, considering all those fad diets out there that restrict what we can eat by banning fruits all together or telling us to stay away from so many veggies. How can we be getting the nutrition we need when there are so many rules about what we can and cannot eat?

Most fad diets recommend you take certain vitamins and minerals in pill form. But don't let that fool you! Taking multivitamins doesn't substitute for eating fruits and vegetables,

"Fruits and vegetables are loaded with vitamins, fiber, minerals and antioxidants."

according to the Cancer Institute. With such a focus on eating low-carb diets these days it's important for us to see the importance of fruits and veggies in our diet.

Eating fruits and veggies instead of high calorie foods will help us feel just as full but with fewer calories. You can eat a large portion and not have to worry about your waist line. Eating a colorful assortment of fruits and vegetables throughout your day helps maximize the number of nutritional benefits you'll be gaining. Of course, starchy veggies like corn and potatoes are something we should watch our portion of.

The USDA suggests half our plate be filled with fruits & veggies.

Don't want to be in the newsletter business?

Here are a few other ways you can do this:

- Create a daily / weekly quotes / inspiration e-mail series.
(There are HUGE businesses around just this!)
- Offer weekly office hours where you sit on a call & take questions for those that show up.
- Create a buyers club (e-commerce). Think Costco / Amazon Prime!
- Give away products of the month like dog toys, jewellery, etc.
- Host Weekly “AMA’s (Ask Me Anything) or Interviews.
- Create community support groups (Facebook groups!)
- Any combination of the above! You’re only limited by creativity.
- Bottom line: Provide value on an ongoing, consistent, convenient basis!

Case Study - Ricardo Antonio

- Started using this system in Nov 2013.
- This is a message I got from him Dec 2013.
- He's still doing it to this day (10 years later!)
- Newsletters & subscriptions in dozens of subjects.
- Some aren't even written in English.
- Sold a small recurring newsletter not long ago for \$60,000 USD!
- Currently running one in the cryptocurrency space!
- Follows this EXACT formula!

**Myth Busted: People Will
Pay For Information And
DO Stay Subscribed!**

Making Sense So Far?

**Goal #2. Attract sales now by
making an offer they can't refuse.**

"MYTH: Attracting Customers Is Hard!"

(Ever had a hard time getting someone to buy?)

"MYTH: Attracting Customers Is Hard!"

- “Sure, Adam! It was easy for you to get customers! You already had an audience!”
- Ok... I’ll admit it. That definitely helped! Traffic is expensive!
- Getting subscribers to sign up and pay for monthly services can be pretty hard!
- But after years of testing, what we've found is if you know how to position your subscription offer properly, it's easy to get people to sign up!
- In fact... you can get paying subscribers in less than 15 minutes!

Goal #2. The 3 Steps To Getting Subscribers To Sign Up

- **Step #1** - Find A High Value Product To Give Away For Free
- **Step #2** - Charge Shipping And Handling To Cover Costs
- **Step #3** - Ask Customers To Pay And Subscribe Right Away

A Decade Of Very Expensive Testing!

- Setting up this kind of stuff used to be a technical nightmare!
- Moved from the online business “stone age” to the “golden age”
- Tools available today make everything much easier!
- Hundreds of hours of refining to get to this process!
- Spent 6 figures testing variations of this sales funnel.
- But for this to make sense...I need to explain a few things first:

Attracting Customers: Step #1

Find Something To Give Away

- FREE = Most powerful word in marketing!
- Easiest way to attract new customers is to give away FREE stuff!
- Need to find a giveaway product that is related to your subscription product (passion / problem)
- Where do you get stuff to giveaway?
- Sites like [AliExpress.com](https://www.aliexpress.com) It's the Chinese equivalent of Amazon.com
- High Value products at 1/10th the price because of currency differences! (Ex: .925 Silver Plated Necklaces: \$2-3)
- You give these items to your customers for FREE to attract people to your page. (Just like a retail location has giveaway / gift days!)
- ... But how do you make money then?

Attracting Customers: Step #2

Charge Them Shipping And Handling

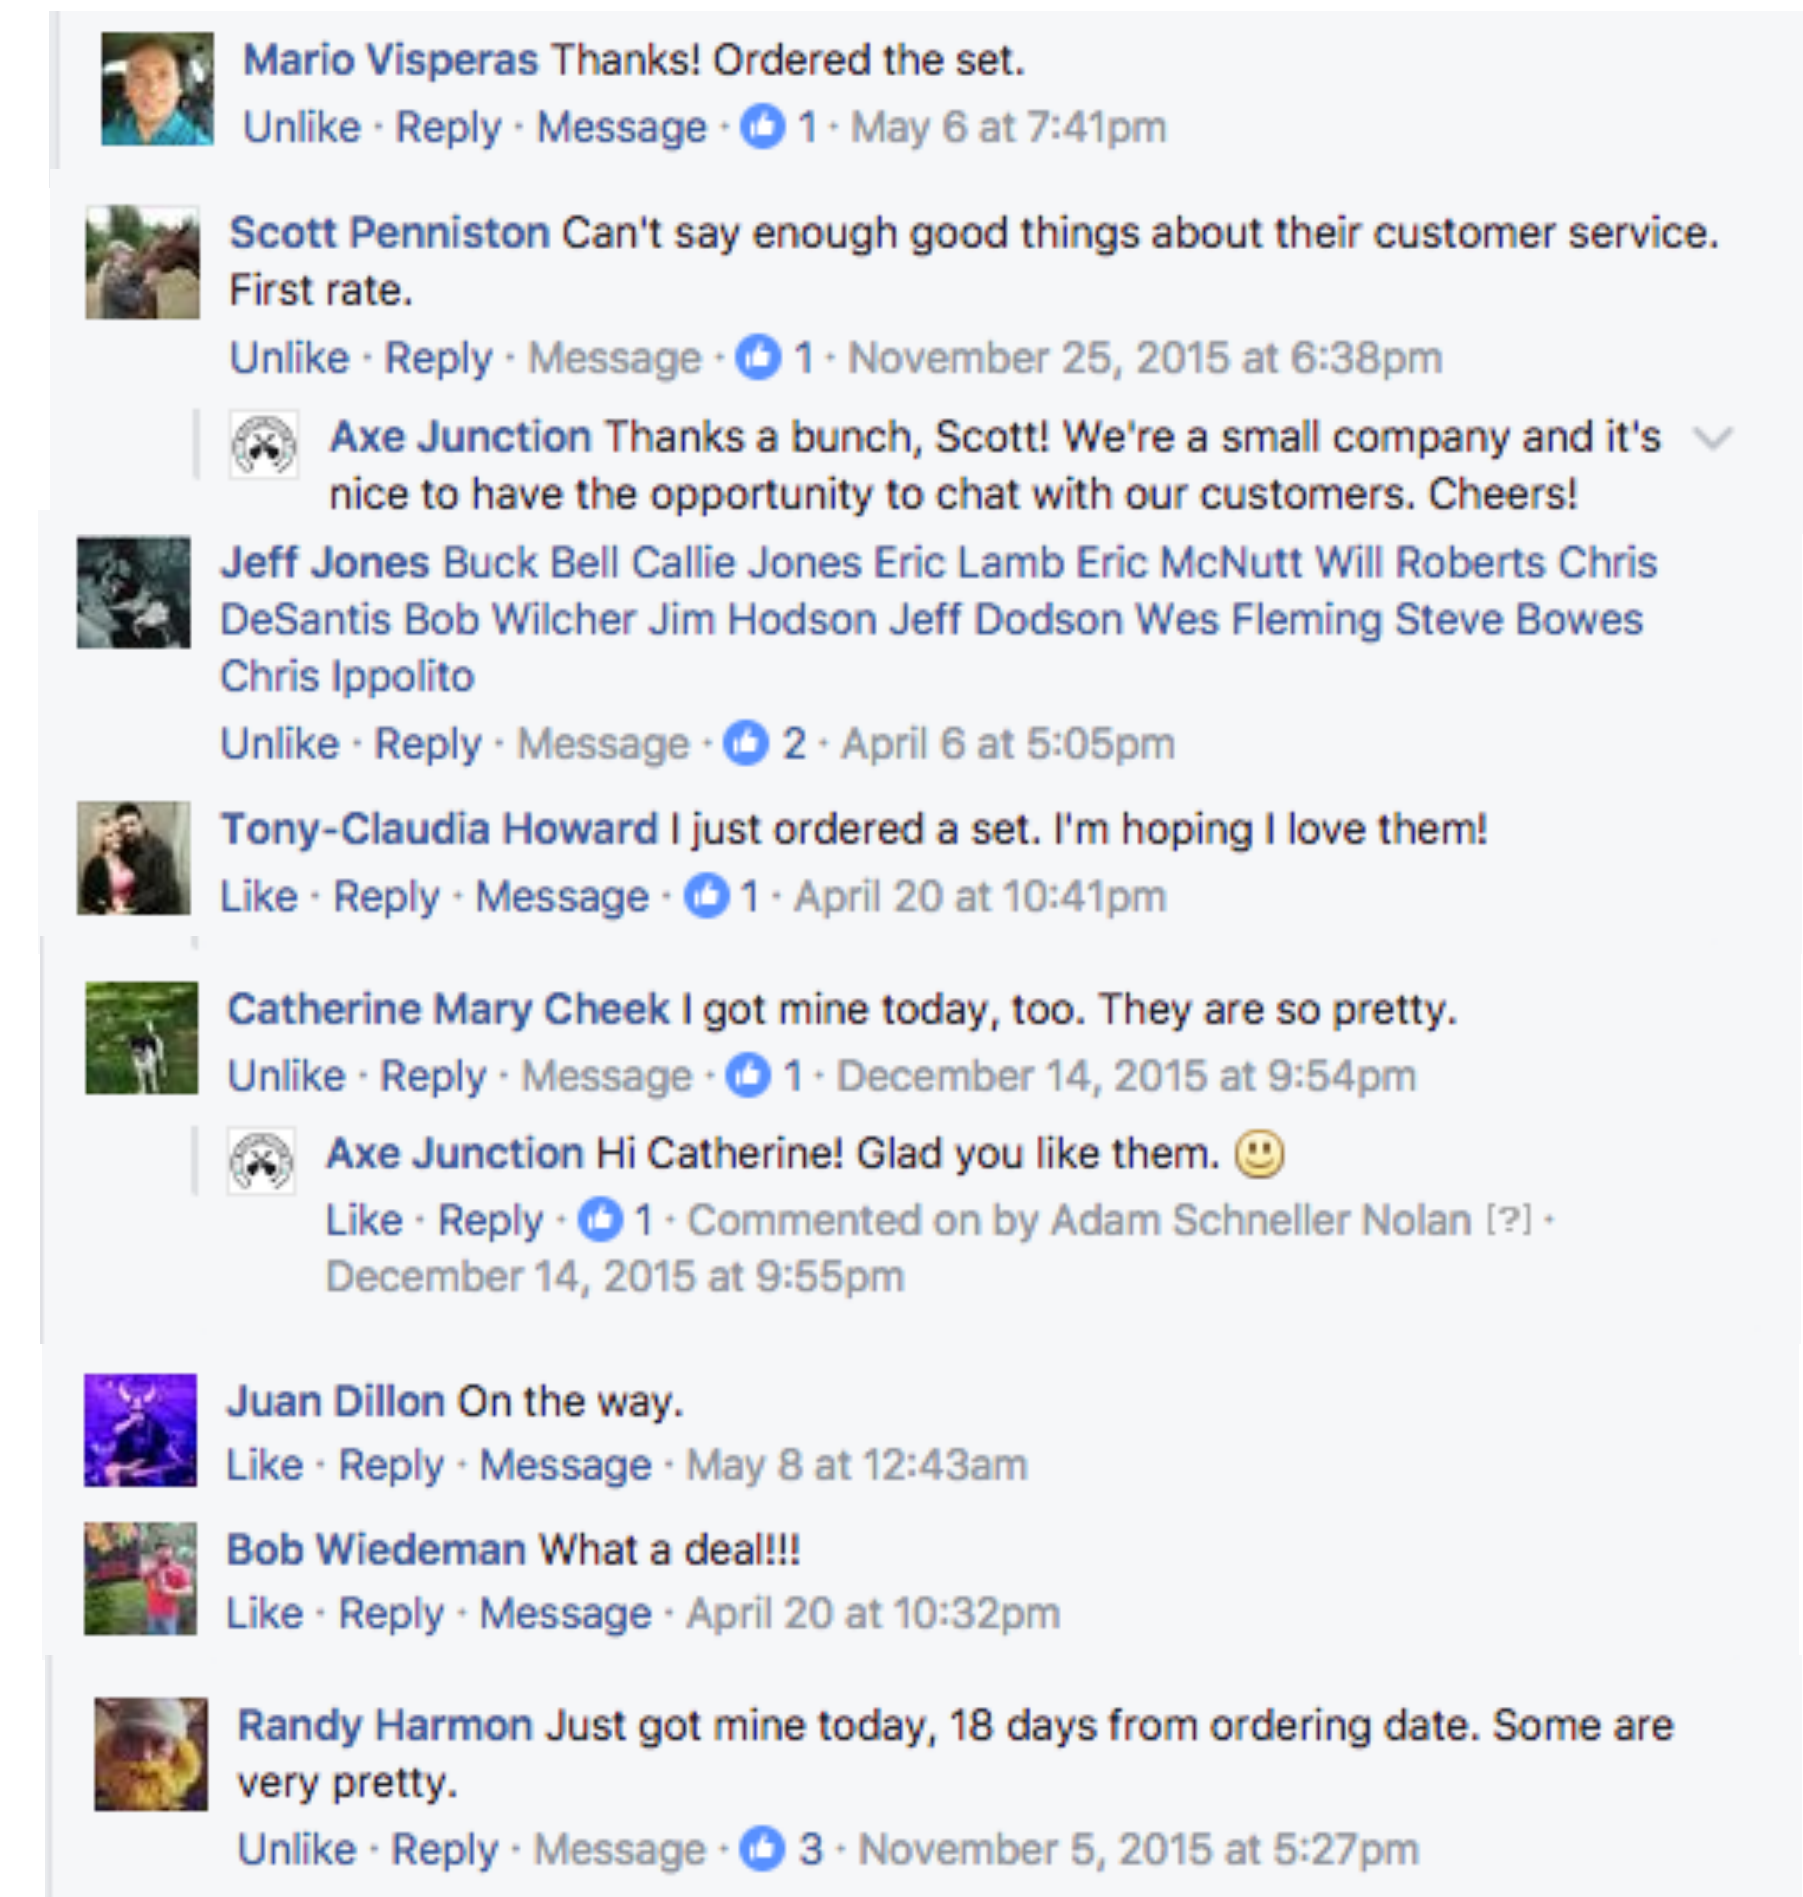

- Charge \$4 to \$7 for Shipping & Handling.
- Customers are used to paying for shipping. It's a reasonable amount!
- FREE Gift + \$5 Shipping = More Valuable than \$5 Gift + Free Shipping.
People assign their own value to your gifts. The value they assign is always higher.
- High perceived value of gift + cheap shipping = No brainer!
- Funds get deposited directly into your bank / PayPal account.
- The S&H charge covers any other expenses (advertising, product, etc)
- So for every gift you give away, you actually get paid!
- You're getting PAID to give stuff away for "FREE!"
- Ex: \$5.00 (Shipping Charge)
 - \$3.00 (Product Cost)
 - = \$2.00 (Total Profit)
- ... But what about getting them the product?

Attracting Customers: Step #3

Order The Product Online!

- Order it online from AliExpress.com and enter the customers shipping details.
- They receive their product in the mail in 2-4 weeks.
- Customer is happy. They got a great gift for free!
- You're happy because you got a new, paying customer and it didn't cost you a dime!

Does This Process Make Sense?

- **Step #1** - Find A High Value Product To Give Away For Free
- **Step #2** - Charge Your Customers S&H To Cover Costs
- **Step #3** - Order Product And Send Directly To Your Customer
- ***"All this is great... but how does it get me monthly subscribers?"***

"MYTH: Online Businesses Are Hard To Setup"

"MYTH: Online Businesses Are Hard To Setup"

- Confession... used to be true. In fact... it used to be a NIGHTMARE!
- Very expensive coders and designers that take weeks to get stuff done!
- Nearly impossible to integrating everything and getting it all to work together.
- Something not working? Stop the presses! Setbacks = weeks to fix!
- If you didn't know how to build a website from scratch... good luck!

Can You See The Potential This Has?

My Goal In Sharing This

- Remember back in the beginning? The Christmas snowstorm? Rock bottom?
- I promised myself that if I ever crawled out of that pit... I'd pay it forward.
- So here I am, a decade later, sharing my story and letting you know that YES, this can be done!
- Yes, you really can make a living working part time online. In fact, it's not that hard anymore.
- BUT... The ONLY way to do this with long term success is with a a low priced, consistent, reliable subscription business.

The Reason I Do This...

I've Made \$24,000 Profit Since Working With Adam!

Deanne Sheam

I currently have a PAID newsletter subscriber base of over 3,000. I wouldn't have been able to accomplish this without the direction of Adam's Passive Print System. Thanks So Much!

Ricardo Anthonio

This thing works. It works insanely well. I just got to checking the stats of the new month of my 2nd paid newsletter and ahjsdgashjdgashsjfg, the feeling to see those sales coming in while you know you didn't have to lift a finger for them is just... ecstatic. Not too long ago I had to work an entire week, 35 hours to make the same money as on this day alone, just from that newsletter. Also, I think my wife is even more attracted to me than before. lol all kidding aside... I never doubted a second Adam's system would work. It just makes SO much sense.

Lance Reeves

Adam was the first person to introduce me to online marketing. Most of what I know today is due to his knowledge. I have applied exactly what he taught me to start my business and quit my day job. I am very sentimental towards Adam because without ever finding his training I would still be miserable with my old job. He is the one who started all this for me and I am forever in debt.

Cedric Licuanan

Adam, your system has completely changed my life...I was a skeptic at first, but I was completely blown away by the content. It's basically the only system that I have gone through practically on a daily basis. The process is so simple, yet powerful. Thanks for all you do Adam!

A few more reasons...

Hey Guys I out my first ads up yesterday morning and had my first sale by that evening. What I found interesting was that the person really wanted them because they tried three times to purchase the lures.
