My Goal For Today's Workshop

- My goal for today is to shatter any disbelief you may have about what is possible with an online business.
- Show you how to turn any hobby, passion or interest into a full-time income with part-time work.
- Show you that thousands of people before you have been in the exact spot you're in right now.
- Give you step by step instructions on how to build a part-time subscription business with nothing more than what I'm about to share on today's workshop.
- So Let's make a promise to each other...

My Goal For Today's Workshop

- I want to give you my absolute 100% best. I won't hold anything back.
- But in return I ask for your best. I ask you to give me 100% while attending.
- And I want you promise to take action and implement what you learn.
- Imagine how YOU are going to use this in your life. What hobby or interest are you going to do this with?
- Plan the steps you'll take to make this a reality. Then act on them!
- Is that fair? I give you 100%. You give me 100%. Everyone wins.
- Sound ok? Go ahead and type a "YES!" in the chat box now!

Why Do Most Online Businesses Fail?

- #1 Problem: Lack of long term, predictable income.
- Most online businesses like e-commerce, affiliate marketing, info-products sales only pay you once.
- If you want to get paid again, you have to keep working! (Kinda like a job!)
- To keep getting paid, you need to be 100% sure that you make the same number of sales tomorrow as you did today.
- If you're not certain you can do that, you can't reliably predict what your income is going to be in 3-6 months.
- If you can't predict your income in 3-6 months, you can't quit your job.
- Don't see results? You get frustrated and start looking for other solutions.

The Vicious Cycle

- You determine the business you're building doesn't work.
- You look for something else and start over again.
- You see some results (or not!) but it's not as consistent as you need.
- You decide it "doesn't work", buy something else & the cycle repeats itself.
- You feel trapped, continue to spend money & get more distrusting & frustrated.
- Get jaded, filled with negativity and believe that this whole "make money online" thing is a scam.

Sound Familiar?

None Of This Is Your Fault!

- The vast majority of businesses aren't designed to be "lifestyle businesses"
- In order to get most businesses to work you have to work 40+hrs a week!
- OR, have a lot of money to hire expensive staff...
- OR... be an expert marketer with a decade of experience!
- Simply put, most businesses don't work unless make BIG sacrifices.
- Which is why so many businesses fail in the first year!

Let's Look At The Big Obstacles Most Folks Encounter

- #1 - Mind Hurdles - “I’m not qualified!”
- #2 - Organizational Hurdles - “I have nothing to sell”
- #3 - Sales Hurdles - “I can’t find any customers!”
- #4 - Time Hurdles - “I’m working 24/7 and I’m burning out!”
- #5 - Tech Hurdles - “This computer stuff is too complicated!”

#1 - Mind Hurdles - “I’m not qualified!”

TEACH WITH YOUR  HEART

- You tell yourself “one more course” and then I’ll be ready.
- Continue to put off building your business due to lack of confidence, NOT lack of knowledge.
- This can drag on for YEARS & is one of the most dangerous forms of "self sabotage"
- But it CAN be overcome (and I'll show you how today!)

CUSTOMER REVIEWS

“It has been a pleasure to work with Adam. Recently he helped me set up my new business, gave helpful feedback on how to do it best. He set up the entire sales funnel, which now has been up and running for a few months, and **I have been able to hit up to 40 sales per day**, still using the same products that Adam suggested in the beginning. It’s an exciting and promising journey ahead. Adam knows this stuff very well and is doing everything professionally. I look forward to continue working with him in the future.”

#2 - Organizational Hurdles - “I have nothing to sell / No hobbies or interests”

- You realize you have nothing to sell. No book, no course, nothing.
- Feel like you don't have any interests, hobbies or passions that would work.
- Often times it's easy to overlook things that come easily to us!
- Odds are if you're interested in it, others are too!
- Many people happily pay fan clubs, curated content or helpful tips!
- Example: James F. - \$100 / Day In Just 4 Days!

#3 - Sales Hurdles - “I don't know how to get sales”

- You've never sold anything before & don't know what to write or say!
- Even if you do know sales, you're not sure how to turn that to an online business!
- May be thinking it requires lots of money and tech experience to make work.
- Or that you need to find investors or bug family for funds.
- Makes sense! But if you watch today you'll see anyone can do this!
- We use a 3 step process that gets sales within a few hours of starting!
- And I'll show you how today and it won't cost a dime!
- Example: Most folks that try this get sales in 24-48hrs.

Hey Guys I out my first ads up yesterday morning and **had my first sale by that evening.** What I found interesting was that the person really wanted them because they tried three times to purchase the lures.

Nina Registerhaas is 🥳 feeling fantastic.

I started my ads up yesterday after pausing it for the weekdays...**and got 2 orders this morning.** :) I went and confirmed in Stripe just to make sure these were genuine. Super happy. Another reason for me to wake so early everyday. Still tweaking things though. Will share when done.

Excited. First part of funnel **went live last night. First sale this evening...** but even MORE exciting? Out of the 6 clicks that FB is recording me paying for, 5 have opted in.

#4 - Time Hurdles - “I’m working 24/7 and don't have extra time!”

- #1 reason that most people burn out! They try to do too much!
- No time between work, family, friends, community & other obligations!
- Biggest problem with most "side hustles" - Work once, get paid once.
- Today I'll show you how to "Work once, get paid forever".

- Rather than trading time for dollars. You get paid passively.
- And I'll show you how to do it in just a few hours a week.
- Example: Shirley Gerbert - Fishing - Making sales while travelling!

Shirley Gebert

Hey Adam ~

I did not post in FB group — been on the road with work and getting caught in some crazy storms, not much time online.

But what the heck! Did FB finally hit on an algorithm that rocks??? Out these numbers in the last week!!!!!!?????

Page Views		Opt-Ins		Sales			Earnings / Pageview	
All	Uniques	All	Rate	Count	Rate	Value	All	Uniques
63	46	36	78.26%	8	17.39%	\$85.60	\$1.36	\$1.86
9	8	-	-	-	-	-	-	-

78% Opt-in rate!!!!!!!??? And 17% sales rate? That's good, right??

#5 - Tech Hurdles - “This computer stuff is too complicated!”

- Tech is supposed to make our lives easier! Seems the opposite!
- Once started, this is the biggest stumbling block. Tech challenges!
- But if you're not good with computers or haven't done this kind of thing before don't worry!
- After teaching this for over 10 years we've developed a tech-free system!
- Literally click 1 button to get your business up and running in minutes.
- Everything is based on easy copy & paste templates anyone can use!

Hi Adam,

Hope you are well my friend!

I wanted to give you a quick update and ask a traffic question.

Last May the F+S funnel worked right away, having 10% conversion from cold FB traffic.

Plus after some testing, I got the upsell with the subscription to convert at 20-25%.

Within 8 weeks we got 248 monthly subscribers of \$7.99!

- You literally make money in your sleep. Your income goes up every month.
- You're able to buy more toys, upgrade the house & go on lots of vacations.
- You're in much better health. Able to relax, take care of yourself, etc.
- Able to contribute to your community or causes more.
- Build a financial safety net. Retire early. Do more of what you love!

How Did I Fall Into All Of This?

- 14 Years Ago... I Had No Clue What An “Online Business” Even Was!
- Regular Canadian guy. Hockey. Beer. Tim Hortons
- Studied Psychology at Carleton University in Ottawa,
- Graduated & got head hunted by a finance company (Freedom 55)
- Worked under a senior advisor. Started building my investment business.
- Things were good! It was a tough, but I was making my way.
- Spent two years building my finance business ... then 2008 happened.

2008: A Terrible Year To Be In Finance

- The economy was tanking.
- Everybody was terrified and stuffing cash under the bed.
- Sept 2008 my customers started withdrawing their money.
- Every dollar I wasn't managing, was a dollar I wasn't getting paid on.
- And since I was straight commission...
- And more money was going out than coming in... I was in trouble!

The Downward Slide

- I started burning through my safety net faster than I could refill it.
- Got to the point where I had to choose between rent and food.
- Meals were peanut butter on crackers. Kraft Dinner was a luxury.
- Dented cans & powdered milk. Tea b/c coffee cost too much!
- It was the economy I was telling myself. It'll pick up soon.
- Things got really, really bad. But I was too proud to ever let my family know.
- Deep down inside... I was terrified and I had no clue what to do.

A Week Before Christmas...

- It was Friday a week before Christmas 2008 and I was looking forward to a much needed break.
- Weather was awful and I had just traveled an hour in a frigid Canadian snowstorm coming home from a sale I didn't close. It sucked.
- But it didn't matter. Because I was on Christmas break now.
- And as long as I had my one big client... I'd be ok...
- Just as I closed the door, on my last day before the Christmas break

Where I lived at the time - (just imagine this covered in snow!)

The Call That Changed It All

“I’m sorry Adam, with the economy and everything, we’re just not comfortable with our investments at the moment so we’d like to withdraw everything we have.”

**And like that... my last pay check
before Christmas was gone.**

I had nothing. No money. No food. No gifts for my family. I was broken.

Hitting Rock Bottom On Christmas

- So there I was... in my early 20's, weeks away from being evicted and \$35,000 in debt.
- Terrified. Hungry, no income and I had no clue what to do next.
- So I did the only thing I could... the night before Christmas I started writing...
- I wrote letters to every member of my family telling them how much I love them and appreciated them.
- It was all I had...

Hitting Rock Bottom On Christmas

- So I went over to my parents place on Christmas morning and for a brief moment everything was normal again.
- And we started exchanging gifts. And I pulled out the only gifts I had... the letters I wrote.
- I felt horrible for not being able to get my little sisters, or anyone, anything for Christmas!
- And as everyone opened their letters, there wasn't a dry eye in the house.
- I had never felt that bad in my life. I couldn't get my family anything for Christmas.
- And my mom turned and said something to me I'll never forget...

**"Adam, you didn't give us
nothing for Christmas, you
gave us everything you had."**

NEVER AGAIN!

NEVER AGAIN!

NEVER AGAIN would I feel trapped and without options.

NEVER AGAIN would I be a victim of circumstance.

NEVER AGAIN would my life be out of control!

NEVER AGAIN would I be hungry or afraid.

Crawling Out Of The Pit Of Despair

- Started crawling out of the pit I had fell into. 2 steps forward... 1 step backwards.
- I was \$35,000 in debt and terrified. I was back at “zero” again.
- Did what everybody does when trying to fix a problem. I went to Google.
- Searched For: “How To Market My Business”
- Read almost every marketing book printed in the past 100 years!
- And I noticed a pattern. All successful ads follow a formula.
- So I started testing this formula... And IT WORKED!

Success Is A Double Edged Sword

- My business started growing. Clients were piling on faster than I could handle them.
- My manager was in awe, wondering where all these people were coming from.
- It felt like magic. Didn't feel real! Getting clients turned into a piece of cake!
- And of course... people started asking questions. And of course, I helped!
- My business very quickly switching from financial help to business and marketing help!

Taking Off Like A Rocket

- I opened up my marketing firm and it grew faster than we could have ever imagined.
- Onboarded over \$100,000 in contracts in 30 days. Added half a dozen employees right away.
- Shortly after sold 5,000+ copies of my first book on how to market your business.
- Brought in over \$5.7 million in sales for clients in just a few months.
- Courses ended up being downloaded hundreds of thousands of times.
- Had over 25,000 people attend live marketing / advertising classes.
- Sure, money wasn't an issue anymore... but guess what...

I WAS STILL MISERABLE!

I Was Too Busy Working To Enjoy Life!

- Never got to see my family anymore. I was always working.
- I wasn't getting enough sleep. I was exhausted.
- Stress levels through the roof (had to take antacids every day!)
- I never got to play guitar... go camping... do anything fun!
- I was burning out. I loved helping. But I couldn't keep it up.
- Life sucked. And I learned another lesson the hard way...

**No Matter How Much Money You
Make If You Can't Do What Makes You
Happy You're Going To Be Miserable.**

The Lightbulb Moment

- End of 2012. Marketing business was doing very well.
- Really busy... burning the candle at both ends.
- Decided to go over my books & noticed something stunning!
- I was paying over \$500 in tiny recurring charges EVERY month!
- Nothing big - things like Netflix, Spotify newsletters & online tools.
- But when you add it up... WHOA! It makes a HUGE difference!
- Sitting there thinking about it and it hit me like a ton of bricks!

The GENIUS At The Other End...

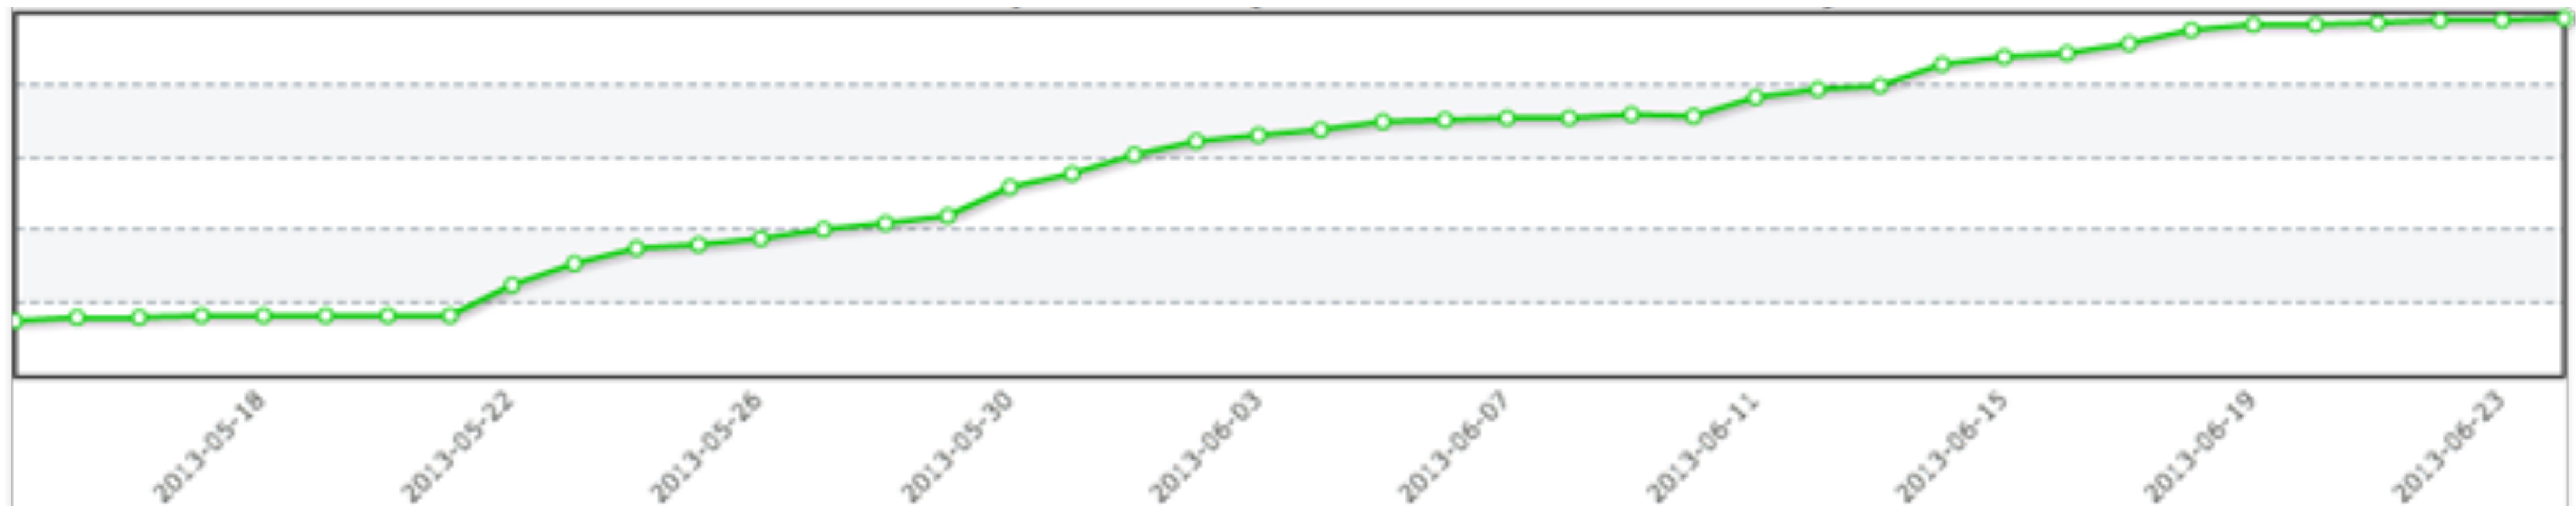

- That money wasn't disappearing!
- There was a brilliant business owner on the other end!
- Thousands of \$5 payments every month from people just like you and I!
- People that liked having the information but were too busy to cancel.
- If this guy can do it, so can I! So I started testing.

Testing The Waters

- Created a small, helpful monthly marketing newsletter.
- Literally a Microsoft Word document with text & images! About 3-4 pages long.
- Made an ugly video saying: “Here’s what I have. Here’s what it will do for you. Here’s how to get it.”
- Asked people to sign up for \$5 a month
- To my SHOCKING surprise: I got hundreds of subscribers right away!

The Results Were Amazing!

- Customers loved it! They just kept paying every month!
- 3 months later less than 5% of customers canceled!
- Customers enjoy content, but forget about small payments.
- Result: Customers happily sign up and keep paying... FOREVER!

And It's Still Working To This Day!

\$148,344 In 1 Year

Why These Low Price Subscription Businesses Work So Well

- When the immediate pleasure of buying something is greater than the pain of paying for it becomes an impulse purchase. (donuts, coffee, candy bars, etc)
- Impulse purchases are easily justified and inexpensive.
- So people don't mind making frequent impulse purchases.
- Focus on the small transaction value, not the frequency of purchases.
- "It's only a \$5.00 coffee a day!" vs "It's \$150 in coffees a month!"
- Notice how most consumer subscriptions are between \$5 and \$20 a month! There's a reason!
- When cutting costs, people focus on the big stuff, not the small "impulse" stuff.
- Have a limited time to "cut back" & want to go for the biggest impact.
- The exact same business model Netflix and Spotify use!
- Immediate gratification + low price = customers stay subscribed for years!

What This Means For You As The Business Owner

- You get bank deposits every single day and get a raise every month!
- Extreme income security, literally worlds most stable online business!
- 1000's of tiny payments from people all around the world.
- Large # of small payments = very consistent, predictable income.
- Easy to know what you'll make month after month.
- Same amount of work whether you're making \$50 or \$5,000 a month.
- Kinda like owning your own Netflix business!
- After teaching online business for over a decade, here's what I've discovered...

"MYTH: People Won't Pay For Stuff They Can Get For Free!"

- Honestly... makes complete sense! I thought the same thing too!
- What I found out though was that people love customized content!
- They want information that is tailored to their specific problem or interest!
- And they don't want to have to hunt for it or question it's reliability.

- Then they just stayed subscribed and kept paying!

Making Sense So Far?

Goal #2. Attract Subscribers Now By Making An Irresistible Offer

**MYTH: Getting Strangers To
Buy Stuff Is HARD!**

MYTH: Getting Strangers To Buy Stuff Is HARD!

- TRUE! Getting them to buy stuff is hard if they don't want what you're selling!
- If they DO want what you're selling, you just have to tell them HOW to get it and they'll buy!
- Think of the last time you went to a store and bought something on sale. You likely didn't need to be sold!
- If your offer is appealing enough, and made to the right audience, getting sales is easy!
- Let me explain...

Making An Irresistible Offer

- Imagine browsing Craigslist and seeing someone selling tickets to your favorite band.
- The tickets are front row, center and there's no chance you'd ever be able to get seats that good again.
- The tickets are normally \$200 each but the concert is tonight and the seller only wants \$20 each.
- You'd respond to that ad faster than your fingers could type! Why?
- Because it was an irresistible offer! It was your favourite band at an incredible price!
- And that is EXACTLY the type of offer we make to attract our customers!

Goal #2. Attract Subscribers Now By Making An Irresistible Offer

- **Step #1** - Create An Irresistible Offer
- **Step #2** - Give It Away For Free
- **Step #3** - Ask Customers To Subscribe Right Away

Step #1 - Create An Irresistible Offer

Find Something To Give Away

- FREE = Most powerful word in marketing!
- Easiest way to attract new customers is to give away FREE stuff!
- Same strategy that McDonalds, Bath & Body Works, etc use.
- Find a giveaway related to what you want to sell (your subscription)
- Where do you get stuff to giveaway? From websites like www.AliExpress.com
- High value products at 1/10th the price. (Ex: .925 Silver Plated Necklaces: \$2-3)
- Give these items away for free to attract people to your website.
- ... But how do you make money then?

Step #2 - Give It Away For Free

Charge Shipping & Handling

- Charge \$4 to \$7 for Shipping & Handling.
- Customers are used to paying for shipping. It's a reasonable amount!
- FREE Gift + \$5 Shipping = More Valuable than \$5 Gift + Free Shipping.
- People assign their own value to your gifts. The value they assign is always higher.
- High perceived value of gift + cheap shipping = No brainer!
- The S&H charge covers all costs (product, shipping, etc)
- So for every gift you give away, you actually make a profit!
- Ex: \$5.00 (Shipping Charge)
 - \$3.00 (Product Cost)
 - = \$2.00 (Total Profit)
- ... But what about getting them the product?

Step #2 - Create An Irresistible Offer

Ship Direct From Supplier To Customer!

- Order product online and enter the customers shipping details just as though you'd be ordering for yourself!
- They receive their product in the mail in 2-4 weeks.
- Customer is happy. They got a great gift for free!
- You never have to manage inventory or ship products yourself
- You're happy because you got a new, paying customer and it didn't cost you a dime!

Step #2 - Create An Irresistible Offer - Recap

- Find Something To Give Away For FREE
- Charge Shipping & Handling
- Ship Direct From Supplier To Customer
- Customer Pays: \$7, Supplier Gets: \$3 , You Keep \$4 .

So, I've always been that guy in online business groups seeing people post their successes while I never saw results myself. It's frustrating. It's stressful....But today, it's finally my turn.

Hi Adam,

Hope you are well my friend!

I wanted to give you a quick update and ask a traffic question.

Last May the F+S funnel worked right away, having 10% conversion from cold FB traffic.

Plus after some testing, I got the upsell with the subscription to convert at 20-25%.

Within 8 weeks we got 248 monthly subscribers of \$7.99!

So the funnel works very very well :)

"It has been a pleasure to work with Adam. Recently he helped me set up my new business, gave helpful feedback on how to do it best. He set up the entire sales funnel, which now has been up and running for a few months, and I have been able to hit up to 40 sales per day, still using the same products that Adam suggested in the beginning. It's an exciting and promising journey ahead. Adam knows this stuff very well and is doing everything professionally. I look forward to continue working with him in the future."

I've Made \$24,000 Profit Since Working With Adam!

Deanne Sheam

I currently have a PAID newsletter subscriber base of over 3,000. I wouldn't have been able to accomplish this without the direction of Adam's Passive Print System. Thanks So Much!

Ricardo Anthonio

This thing works. It works insanely well. I just got to checking the stats of the new month of my 2nd paid newsletter and ahjsdgashjdgashsjfg, the feeling to see those sales coming in while you know you didn't have to lift a finger for them is just... ecstatic. Not too long ago I had to work an entire week, 35 hours to make the same money as on this day alone, just from that newsletter. Also, I think my wife is even more attracted to me than before. lol all kidding aside... I never doubted a second Adam's system would work. It just makes SO much sense.

Lance Reeves

Adam was the first person to introduce me to online marketing. Most of what I know today is due to his knowledge. I have applied exactly what he taught me to start my business and quit my day job. I am very sentimental towards Adam because without ever finding his training I would still be miserable with my old job. He is the one who started all this for me and I am forever in debt.

Cedric Licuanan

Adam, your system has completely changed my life...I was a skeptic at first, but I was completely blown away by the content. It's basically the only system that I have gone through practically on a daily basis. The process is so simple, yet powerful. Thanks for all you do Adam!

On the left, a sidebar lists milestones: Milestone 1 (Laying The Foundation), Milestone 2 (Creating Your Offer), Milestone 3 (Setting Up Your Offer), and Milestone 4 (Advertising Your Offer). Milestone 4 is expanded, showing a checklist of tasks: Setting Up Your Facebook Ad Account, Part 1: Determine Your Ad Numbers, Part 2: Finding Your Ad Targeting, Part 3: Writing Your Ad Copy, Part 4: Designing Your Creatives, Part 5: Setting Up Your Facebook Ads, Part 6: Managing Your Ad Campaigns, and Part 7: Scaling Your Ads. The main content area is titled 'Part 2. Finding Your Ad Targeting' and includes introductory text about the importance of targeting. Below the text is a video player showing a graphic of a blue circle with three smaller red circles inside a green circle. At the bottom, there's a section titled 'Finding Your Ad Targeting' with a video player and a description of the step-by-step process.

- **"Welcome Sequence" Email Template** - This "copy & paste" email campaign conditions your subscribers to open, click and buy at astonishing rates. Set It. Forget It. Get An Instant 20% sales boost!
- **"4 Day Cash Machine" Email Template** - Updated & revised for subscription businesses! This promotion will bring in a FLOOD of sales whenever you send it out them. Great for a monthly boost in subscription numbers.
- **"5 Day Fire Sale" Email Template** - Create a black-friday-like buying frenzy anytime you want! Perfect for selling multiple purchases and getting customers to buy all week long!
- **"The INFAMOUS 9 Word Email"** - Responsible for over 5.9 MILLION in sales JUST last year! Just change 1 word & press send. Then watch the sales come in!
- **The "Daily Email" Formula** - The INCREDIBLY simple formula anyone can use (even if you hate writing) to keep your subscribers engaged and buying every week!

The screenshot displays the 'subscription school' Member Home interface. On the left, a sidebar titled 'Member Home' lists five milestones, with Milestone 5 'Increasing Your Sales' selected. Below the milestones, a list of parts for Milestone 5 is shown, including 'Part 3. Your Welcome Sequence'. The main content area features a video player titled 'The Welcome Sequence' with a progress bar at 22:46. Below the video, a 'Lesson Resources' section lists three documents: 'Welcome Sequence Template', 'Axe Junction Welcome Sequence Example', and 'Waggle & Woof Welcome Sequence Example', each with an 'Open' button. On the right, a progress indicator shows '67% COMPLETE' with a progress bar and 'Back' and 'Next' navigation buttons.
